Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CAR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel, claims 3-10 and 13-20.

Reasons for Allowance

Applicants' response to the last Office Action, filed on July 19, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 2 and 12 are allowable over the prior art of record.

Independent claims 2 and 12 recite the limitations of : the characteristics correction section corrects an average value of three RGB signals and each of RGB outputs to a value resulting in a black character based on a compression unit according to a black character identification signal from the identification section. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

Art Unit: 2623

The closest reference of US 6404919 to Nishigaki et al.) discloses an image compression and decompression apparatus for color compression. However, he does not teach the limitations of cited above. In view of the amended claims and the Applicant's arguments, the objections to claims 2 and 12 are expressly withdrawn.
